VR PluraView – 3D-CAD Monitor revolutionizes industrial computed tomography

Content by
Aardworx

VR PluraView 4K 3D

- Head tracking for an intuitive virtual reality experience
- Ideal supplement when using HMD & VR glasses
- Object tracking with balls or sticks for realistic model interaction
- Absolutely flicker-free for relaxed 3D work
- Highest resolution of 4K per eye with window space of suitable brightness
- Compatible with any VRPN-based VR software - without tracking to many CAD programs

Long-term upgradeable CAD-Workstation – Special AMD Threadripper Bundle

CAD-Workstation PULSARON

- AMD Socket TR4 platform with PCI-Express 3.0
- Latest AMD Ryzen Threadripper CPU
- Up to 100 GB most modern DDR4-2933 MHz of RAM
- VR-Ready prof. graphics card AMD Radeon Pro WX
- Especially flexible motherboard with many interfaces: PCI-Express 3.0, USB-C / 3.1 / 3.0
- Ultrafast PCIe M.2 SSD, 500 GB memory
- Very quiet operating noise
- Long-term upgradeable only by processor replacement

Schneider Digital – your full service solution provider for CAx-Hardware

- High-End Performance-Workstations
- Professional graphics cards from AMD and NVIDIA
- 2D and 3D stereo 4K monitors
- 3D controllers, input and peripheral devices for CAD and VR/AR
- Individual consulting, tailor-made products and solutions
- Professional Service & Support - before, during and after purchase
