

# CLARITY MATRIX G3 LCD VIDEO WALL SYSTEM

Product Overview – January 2020

# Clarity Matrix G3 LCD Video Wall System

## Industry-Leading Performance and Value

- Enhanced video wall processing and software
- Mission-critical design with off-board electronics, hot-swappable redundant power supply
- Industry's thinnest installed depth as small as 3.5" (88mm)
- Intuitive 6-axis mounting system with micro adjustments for perfect alignment and easy serviceability
- The most advanced and comprehensive line up of LCD video wall models
- 46", 55" and 65" LCD Displays with Tiled bezel widths of 0.88 mm, 1.7 mm and 3.7 mm

# Audiences and Applications

## Primary Audiences:

- Public venue
- Corporate
- Higher education
- Military

- Digital signage
- Command and control
- Corporate communications
- Entertainment

## Common Applications:

# System Components

- 1 Clarity® Matrix® G3 LCD Video Wall System**
- 46", 55" and 65" LCD displays
  - World's smallest tiled bezel width down to 0.88 mm
  - Slim, lightweight design
  - Includes Planar® EasyAxis™ mounting and alignment system

- 2 Planar® Video Controller (VC)**
- 1U rack-mountable controller drives up to 9 Full HD (1920 x 1080) sections
  - 5 4K@60Hz inputs available with each VC
  - Embedded video and control extension
  - Planar® Big Picture Plus™ Processing with Planar® WallSync™ genlock technology

- 3 Planar® Remote Power Supply (RPS)**
- 1U rack-mounted power supply powers complete system (up to 24 LCD displays & video controllers)
  - Hot-swappable redundant supply option

- 4 Planar® WallDirector™ Software**
- Tool to setup, monitor and operate your video wall
  - Web-based browser interface

# Clarity Matrix G3

## Key Features

- Advanced off-board video wall processing with Planar Video Controller:
  - Windowing, scaling, Picture-in-Picture (PiP), layout storage and recall
  - HDMI 2.0 and DisplayPort 1.2 inputs (4K@60Hz)
  - DisplayPort 1.2 loop output
  - Drives up to (9) Full HD (1920 x 1080) display sections
  - Up to 200ft (61m) transmission distance over Cat6\*
- Off-board Planar Remote Power Supply:
  - Redundant hot-swappable power supply module
  - Compact power density
  - Low power standby mode
- Planar® EasyAxis™ Mounting System offers the industry's thinnest available mounting depth

\*MX65U-4K maximum transmission distance = 40 m over Cat6a

# Off-Board Electronics Architecture

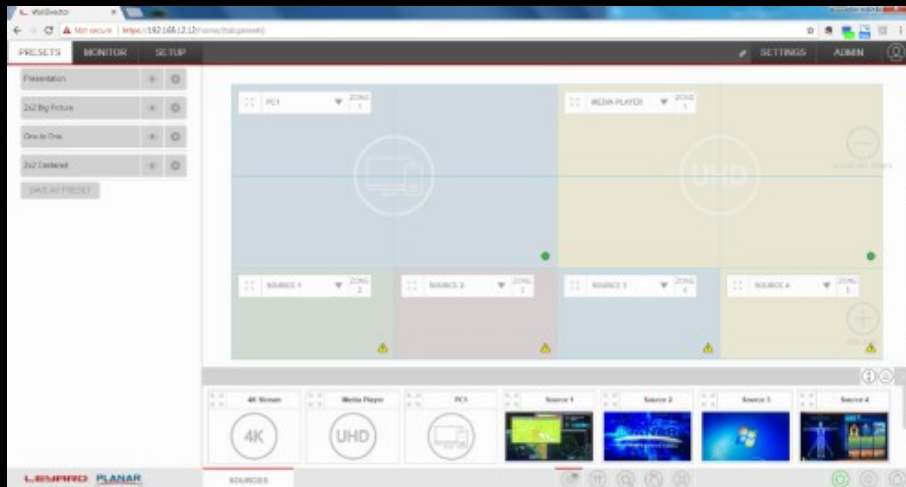

## Key Benefits

- Rack-mountable components keep heat, weight, depth, noise and points of failure away from the video wall
- G3 components can be co-located with sources and processing equipment for simplified connectivity, security, and maintenance
- Redundant power supply option maintains operation in the case of a power supply failure

# Planar WallDirector Software

Intuitive Software Simplifies Configuration, Servicing, Monitoring & Operating

- Cross-platform web browser-based software locally hosted on remote equipment
- Modern, user-friendly interface controlled from PC or mobile device
- Intelligently detects components in the system
- Processing and system management capabilities: Windowing layout creation, storage and recall, source scaling and switching, system scheduling and monitoring with customizable email and SNMP alerts
- Administrative privileges and control

# Planar Big Picture Plus Video Processing

## Flexibility and Enhanced Capabilities with Clarity Matrix G3

- Clarity Matrix G3 supports a variety of different source configurations
- Allows scaling an image across the entire video wall or in sections of the video wall
- Clarity Matrix G3 adds PiP overlapping of sources
- Planar WallSync technology used to eliminate video tearing and deliver genlock synchronization
- How your wall is cabled and which VC your source is plugged into can limit where you can place content on the screens
- Planar WallDirector software is used to configure and operate the source configuration
- Also supports third-party processing solutions

# Planar WallSync

## Industry's First Fully Integrated Synchronized Video Wall Technology

- Supports video wall synchronization to both customer-selected connected video sources and external house syncs
- Incorporates Smart Genlock feature to ensure perfectly synchronized video display without misalignment or tearing
- Accessible through Planar WallDirector Software

# Mounting for Clarity Matrix G3

## Mounting Options

Planar EasyAxis Mounting System

VESA mount hole pattern (optional)

# Mounting for Clarity Matrix G3

## Planar EasyAxis Mounting System

- Industry's thinnest LCD video wall
- Perfect display-to-display alignment with alignment cams for 6-axis of adjustment
- ADA-compliant mounted depth as small as 3.5" (88mm)
- Reduces alignment time
- Easy front access — All adjustments are done from the top
- Built-in service mode
- Mounts are included with the displays

# Clarity Matrix G3 LCD Video Wall System

## Planar EasyAxis Mounting System

*Same wall brackets and spacers as Clarity Matrix G2*

- New Interface Board— Provides shorting protection for improperly terminated power cables
- Memory chip— stores SN, color calibration values for each panel

# Additional Features and Options for Clarity Matrix G3

- Fiber Video Extension
- LEDs at display and Video Controller aid diagnostics and troubleshooting
- Video extension cable integrity sensing
- Mullion compensation
- EDID Management
- Serial number capture
- Configuration and settings export/import
- Standard Video Controller now offers 9 outputs to drive up to (9) 1080p displays
- 6-point and 32-point multi-touch option kits available

# Clarity Matrix G3 Complete

Pre-packaged 2x2, 3x3 or 4x4 LCD Video Walls with Everything

Models:

- Clarity® Matrix® G3 Complete™ LX55M-L 2x2
- Clarity Matrix G3 Complete LX55M-L 3x3
- Clarity Matrix G3 Complete LX55M-L 4x4

Video Wall Display:

- 55" diagonal
- 0.88 tiled bezel width
- 1920x1080 resolution
- 500 nit brightness

# Clarity Matrix G3 Complete

Pre-packaged 2x2, 3x3 or 4x4 LCD Video Walls with Everything

Includes:

- 55" Clarity Matrix G3 LX55M
- 4, 9 or 16 Full HD video wall displays
- Video controller and power supply electronics with redundancy option
- Display interconnect and 200' homerun cables
- Trim
- Mounts
- Spare displays
  - 2x2 = 1 spare
  - 3x3 = 2 spares
  - 4x4 = 3 spares

# Clarity Matrix G3 Models

## MX65U-4K

- High Performance
- 65" diagonal
- 3840x2160
- 800 nits
- ADA-Compliant
- 3.7mm tiled bezel

## MX55M

- High Performance
- 55" diagonal
- 1920x1080
- 700 nits
- ADA-Compliant
- 0.88 mm tiled bezel

## MX46X MX55X

- High Performance
- 46" & 55" diagonals
- 1920x1080
- 800 nits
- ADA-Compliant
- 1.7 mm tiled bezel

## MX46U MX55U

- High Performance
- 46" & 55" diagonals
- 1920x1080
- 800 nits
- ADA-Compliant
- 3.7mm tiled bezel

## LX55M

- High Performance
- 55" diagonal
- 1920x1080
- 500 nits
- ADA-Compliant
- 0.88 mm tiled bezel

## LX46X LX55X

- Standard Performance
- 46" & 55" diagonals
- 1920x1080
- 500 nits
- ADA-Compliant
- 1.7mm tiled bezel

## LX46U LX55U

- Standard Performance
- 46" & 55" diagonals
- 1920x1080
- 500 nits
- ADA-Compliant
- 3.7mm tiled bezel

## LX46U 3D

- Standard Performance
- 46" diagonal
- 1920x1080
- 500 nits
- 3.7mm tiled bezel

# Planar ERO-LCD (Extended Ruggedness and Optics)

## Protective Surface Technology for LCD Displays

- Protective soda-lime glass optically bonded to the LCD
- Improved contrast, clarity, and legibility
- Added protection and durability
- Reduced glare and parallax error
- Keeps out dust and moisture
- Modular touch surface, maintains serviceability

# Clarity Matrix G3 MultiTouch

## Interactive LCD Video Wall System

- Modular impact-resistant touch surface with Planar ERO-LCD technology
- Up to 32 simultaneous touch points
- Allows multiple users to interact simultaneously
- Pinpoint touch accuracy
- Capable of wall sizes up to ~500" diagonal
- HID-compliant option for walls <150" diagonal
- Available with 46", 55" or 65" Clarity Matrix G3 Models
- Mounted depth 4.5" (*not ADA compliant*)
- Power to touch frame provided by LCD display no additional outlets required at wall

# New Clarity Matrix G3 Packaging Carton

The newly designed Clarity Matrix G3 Shipping Carton holds two Clarity Matrix G3 LCD displays and incorporates a number of key features, including:

- Additional and redesigned foam inserts to survive impact, drop and tip tests
- In-box test process and viewing cutouts to quickly identify and report any shipping damage without removing the display from the packaging
- Individual display carriages to easily and safely move each display to a convenient location while keeping it fully protected until mounting to the wall

# OFF-BOARD RACK COMPONENTS

Clarity Matrix G3

# Clarity Matrix G3 Off-Board Electronics Architecture

## Key Benefits

- Components fit in standard racking units
- Removes heat, weight, depth, noise and points of service from the video wall
  - Removing heat allows our displays to be 800 nits vs 700 nits for competitors' same class displays
- Rack can be co-located with sources and processing for convenient cabling, security, and climate control
- Maintenance is easy to access and does not interfere with video wall
- Redundant power supply option maintains operation in the case of a power supply failure

# Planar Video Controller (VC)

## Key Features

- Purpose built, OS-agnostic video wall processing platform
- Built-in video and control signal extension
- Modern connectivity
- Works with Redundant Remote Power Supply
- LEDs and front-panel LCD for system status and easy troubleshooting
- Configuration storage and recall

# Available Video Controller Models

**VC9H-BP+**

9-Output VC *(Standard Controller for 1080P displays)*

**VC4H-BP+**

4-Output VC *(Optional Controller for 1080P displays, Standard Controller for MX65U-4K)*

# Video Controller Models

## Choosing the Right Model

### VC9H-BP+ 9-Output Unit

Best for applications where:

- Rack space is a concern
- Planar Big Picture Plus is used
- Relatively small number of sources are required
- Matrix switcher is used
- Video processor with 4K outputs is used

### VC4H-BP+ 4-Output Unit

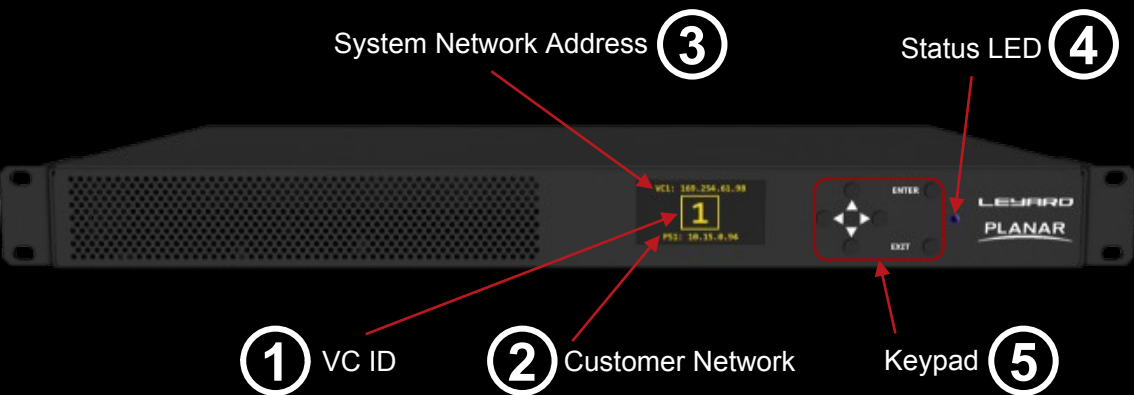

Best for applications where:

- Rack space is not a concern
- Larger number of directly-attached sources are required
- More content zones or windows on the video wall are desired
- Fiber applications
- MX65U-4K video walls

# Planar Video Controller

## Front Panel View

- 1. Video Controller ID**
- 2. Customer or Direct Connection Network Address –**  
Default Address is 196.168.12.12
- 3. System Network Address –**  
for that VC
- 4. Status LED –**  
Blinks when receiving a command
- 5. Keypad Menu**
  - System On/Off
  - Factory Reset
  - System Reset
  - Set IP for VC

*Front of Video Controller is the same for 9-Output and 4-Output models.*

# 9-Output Planar Video Controller

## Back Panel View - VC9H-BP+

- 1. Power In/Out** – Can loop up to 2 additional VCs
- 2. HDMI 2.0 Inputs** – Each input capable of up to 4K at 60Hz
- 3. DisplayPort 1.2 Loop In/Out** – Input capable of up to 4K at 60Hz
- 4. 9 Video Outputs (RJ45 8P8C)**–
  - Shielded CAT6 or greater
  - Up to 200ft / 60m
- 5. Built-In Synchronization Board**
- 6. IR Remote**
- 7. RS-232 and USB Control**
- 8. Aux USB**- Used for firmware download
- 9. Network Ports**
  - System communication

# 4-Output Video Controller

## Back Panel View - VC4H-BP+

- 1. Power In/Out** – Can loop up to 2 additional VCs
- 2. HDMI 2.0 Inputs** – Each input capable of up to 4K at 60Hz
- 3. DisplayPort 1.2 Loop In/Out** – Input capable of up to 4K at 60Hz
- 4. 4 Video Outputs (RJ45 8P8C)** –
  - Shielded CAT6 or greater
  - Up to 200ft / 60m
- 5. Built-In Synchronization Board**
- 6. IR Remote**
- 7. RS-232 and USB Control**
- 8. Aux USB**- Used for firmware download
- 9. Network Ports**
  - System communication

# Video Controller Models

## Key Differences

	<b>VC9H-BP+</b>	<b>VC4H-BP+</b>
		
	9-Out VC	4-Out VC
Usage/Implementation	Standard for 1080P Models	Standard for MX65U-4K, Fiber Applications, Optional for 1080P Models
Video Outputs <i>(Full HD sections)</i>	9	4
Inputs	4x HDMI, 1x DP	4x HDMI, 1x DP
Zones	9	9
Rack Space	1RU	1RU

# Planar Remote Power Supply

## Efficient, Reliable and Mission-Critical Off-Board Power Solution

- Same physical design as Remote Power Supply (RPS) for Planar DirectLight X LD Video Wall System
- 3-4 times higher power density – fewer RUs
- Redundant and hot-swappable modules
- 110V or 220V support to further reduce circuits used
- Ultra-low standby power mode (< 3 Watts)
- Added monitoring functionality

# Planar Remote Power Supply Models

Two Form Factors, Configured Per Installation

## RPS110

100-240V. Maximum 3,600 Watts out. 1 RU – *Standard*

## RPS220

200-240V. Maximum 7,200 Watts out. 1.5 RU - Greater power density - *Optional*

# Planar Remote Power Supply Models

## RPS110

# Planar Remote Power Supply Models

## RPS220

1.5 RU. 19" Rack

RPS module

Redundant module bay

RS-232 control

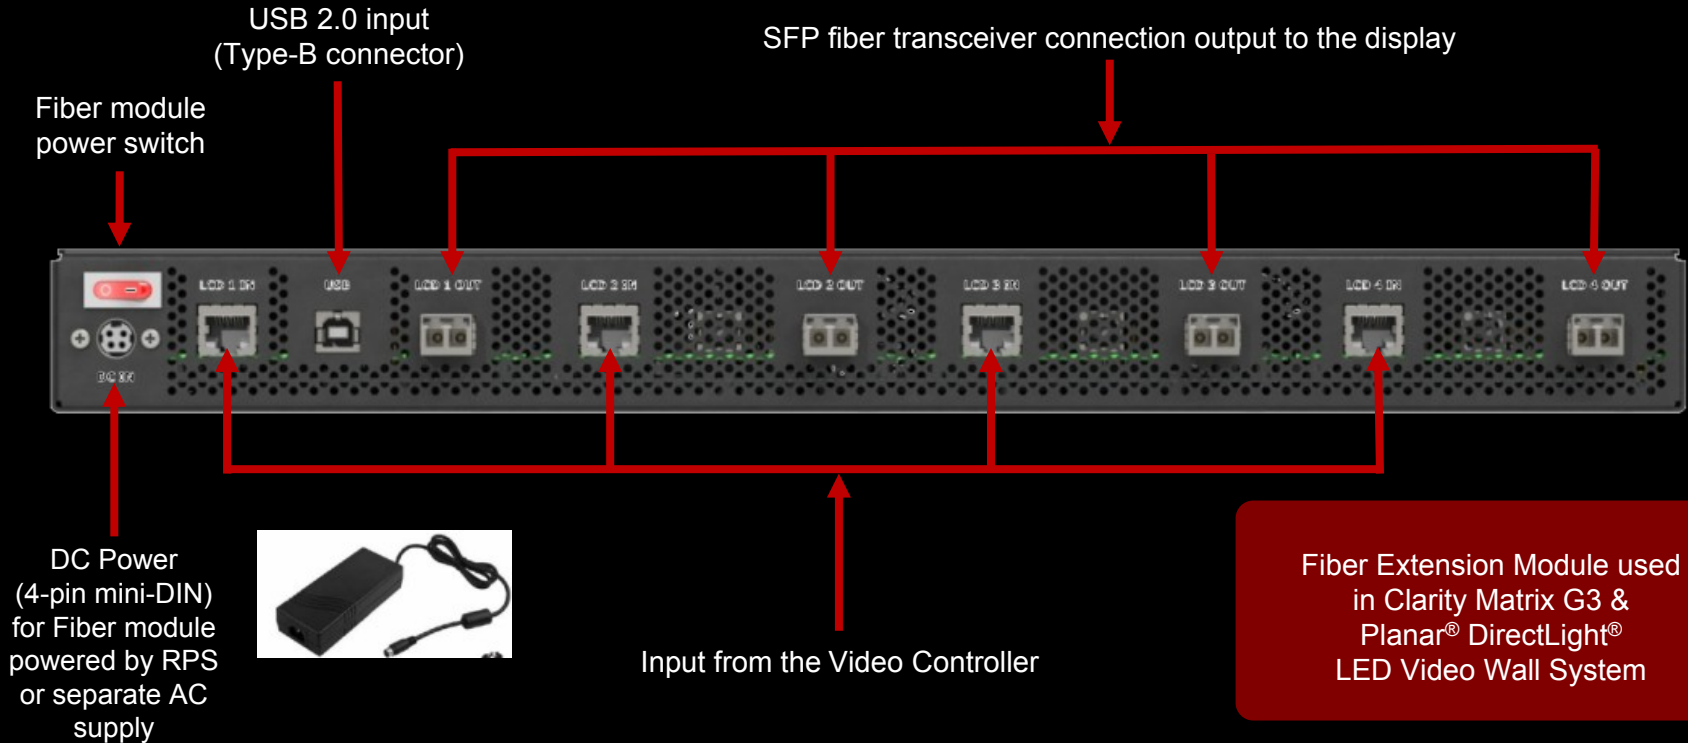

Diagnostics lights

(6) 1200w output

Breaker per output

Circuit redundancy

# Fiber Video Extension Module

# Clarity Matrix Fiber Video Extension Module

## Display Interface Board

# Supported Cable Lengths

# Clarity Matrix G3 Accessories

- Cat6 cables: 25, 50, 75, 100, 200ft
- DC power cables (plenum rated): 8, 25, 50, 75, 100, 200ft
- Bulk cables, connectors, tools
- Redundant power supply module
- Edge trim
- Floor stands
- Stud adapter bracket
- Clarity Matrix MultiTouch
- HDMI 2.0 input cables

# Clarity Matrix G3 Accessories Kit

The Accessories Kit contains:

- IR receiver
- Allen screwdrivers
- Remote control
- Fabric gloves
- Remote off connector
- USB drive with manual, etc.
- DP loop through cable (1m)
- Mini HDBNC cables for genlock

# Clarity Matrix G3 Accessory Box

The Accessories Box contains:

- Horizontal spacing brackets
- Vertical spacing brackets
- AC power cord (3 meters)
- CAT6 STP video cables (if ordered)
- Display power cables (if ordered)
- Display power loop cables (if ordered)

# COMPETITION

Clarity Matrix G3

# Clarity Matrix G3 Competitive Advantages

- The industry's most advanced and comprehensive video wall system
- World's thinnest tiled bezel width of .88 mm
- Off-board rack-mountable electronics architecture with:
  - Hot-swappable power supply with redundancy option
  - Cascadable video controller allows for system scaling
- Integrated web-based Wall Director control software
- Layout management, windowing, PiP, video scaling system scheduling, monitoring, email and SNMP alerts
- HDCP 2.2
- 4K downscaling
- Thinnest ADA-compliant installed depth
- Planar ERO-LCD Technology— protective glass for high-traffic and touch surface protection

# LCD Video Wall Comparison

Feature	Benefit	LEYARD PLANAR	NEC	SAMSUNG	BARCO	LG
Off-board Electronics	<ul style="list-style-type: none"> <li>Removes heat, weight, noise, and points of failure from the video wall</li> <li>Quicker to service, no disruption or cost associated with servicing at the video wall</li> </ul>	●	○	○	●	○
Depth less than ≤ 3.6" / 93mm	<ul style="list-style-type: none"> <li>Maintain LCDs' slim profile</li> <li>ADA-Compliant</li> </ul>	●	○	○	○	○
